for Children®

A Commitment to Children

At Shriners Hospitals for Children®, patients and families find hope, compassion and quality care for complex medical conditions. Every day at our locations throughout North America, we are improving lives and helping dreams become realities.

Our excellent physicians, surgeons, nurses, therapists and other medical staff help children with orthopaedic conditions, burns, spinal cord injuries, and cleft lip and palate have the fullest lives possible.

Our innovative research and outstanding medical education programs help us carry our mission even further. Shriners Hospitals for Children is committed to conducting high quality, innovative research in the areas of burns, orthopaedic/musculoskeletal and neurological injury and disease in order to improve the care and quality of life of children with these conditions and challenges. By maintaining relationships with several medical teaching facilities, Shriners Hospitals for Children fosters an academic environment committed to providing high-quality education for its medical staff and excellent care to all patients.

In addition to providing high-quality medical care, Shriners Hospitals for Children is committed to the overall health and well-being of children, and works to provide information and resources that will strengthen and encourage others who are committed to helping children overcome challenges, believe in their dreams, and go on to live lives full of hope and promise.

Resources for School Nurses

We are honored to partner with the National Association of School Nurses, and are pleased to provide information and resources to help school nurses improve the health and quality of life of today's students.

Shriners Hospitals for Children offers information and, in some cases, materials that can be downloaded or ordered on a variety of health and safety topics, including:

- ♥ **Summer safety:** Summer is a time of playground fun and other outdoor activities that can lead to a higher risk of injuries. Learn more about ways these injuries can be prevented.
- ♥ **Burn awareness and prevention:** Our Be Burn Aware materials provide basic home safety information for both children and adults.
- ♥ **Scoliosis:** We provide information on the importance of early detection, and the availability of an app to help parents monitor their child's spine health.
- ♥ **Anti-bullying:** The #CutTheBull effort discusses the prevalence and effects of bullying, and offers ways to create a more positive environment.
- ♥ **Spinal cord injury:** We offer tips on precautions that can help prevent these potentially devastating conditions.
- ♥ **Backpack safety:** We provide information and activities on the safe and correct use of backpacks.

If a school nurse has a question, we invite them to contact their closest Shriners Hospital, ask to be connected to the outpatient department and speak with a member of our nursing staff. We are ready to serve and assist.
